

**Center of Light for Applied Metaphysics**  
**COVID-19 Reopening Guidelines**  
**05/20/2020**

The Center of Light is a Metaphysical and Educational Organization that engages in a search for meaning, purpose, and direction for life. We believe that resident within us is Divinity as well as Humanity. The health, safety, and wellness of our members and friends is our utmost priority during this time of uncertainty.

We will be opening the Center for outdoor services and events under the tent on Sunday May 24.

We have the following guidelines to be followed as we begin to reopen the Center for our members and friends.

**THE BIG TENT**

A large tent is erected on the driveway for holding services, classes, and events. This keeps us out in the open air where viral spread is much less likely. Even so, effective social distancing will be maintained and the chairs will be placed so that this is accomplished. People from the same household may sit together.

**RESTROOM POLICY**

Restrooms inside the building will be available for use. There are two restrooms downstairs and one upstairs. **For safety reasons we will limit the number of members or guests inside the building at any one time to three (3) people.**

Only one entrance will be available for restrooms. Follow the signs to the door up the ramp to the door to the Sunroom. Please write your name or initials on the whiteboard stationed by the door when you go inside the building and erase it when you come out. If there are already three names on the board, please wait until someone exits.

One young child accompanied by their parent will be counted as one person.

The ramp will be marked for 6' distancing of people as they wait to enter the building.

Please maintain 6' social distancing at all times within the building.

Leaving the building through the Sunroom door please go down the steps and not the ramp as people may be lined up to enter.

**MAIN DOOR**

Please do not enter the building through the main door under the carport. This entrance will be reserved for clergy who need to prepare for services.

**MASKS**

**Wearing masks or facial covering either outside under the tent or inside the building is recommended but not required.** We are relying primarily on meeting outside along with robust social distancing as the most effective prevention of viral spread.

Masks will be available for those who prefer to wear one outside or inside. Bring your own if you have one.

## **FANS**

Cooling fans will be used when necessary, and the sides of the tent can be raised for cross-breeze and expanded space as weather permits. We recommend everyone bring their own personal fans if you have one.

## **SANITIZING**

Wall-mounted hand sanitizers will be placed at the main entrance, ramp entrance, between the two restrooms downstairs, and the one upstairs.

Sanitizing guidelines after the use of the restrooms will be posted in each restroom. Disinfectant wipes, hand sanitizers, anti-bacterial soap, and paper towels will be available for your use (no cloth towels will be utilized during this time).

The cleaning crew will continue to highly sanitize the facility once a week, or more if necessary.

## **REFRESHMENTS**

No food or drinks will be served during this time of restriction. Please bring your own if you want.

## **PERSONAL RESPONSIBILITY**

If you attend the services and classes at the Center, you will be responsible for your own health. The Center of Light will do its best to maintain a clean and sanitized facility but will not be held responsible if you are or become ill.

If you are running a fever, believe you are sick, or feel uncomfortable meeting in person, please stay home. You may continue to enjoy our recorded services on Facebook, YouTube, and our Website.

We will be reopening in the safest manner possible. If you are uncomfortable with any of the guidelines, please wait to join us at a later date!
